

# AXA RESEARCH FUND FUTURE RESEARCH LEADERS FELLOWSHIPS FIRST CALL FOR APPLICATIONS RESULTS

**The AXA Research Fund is pleased to announce the results of the 2018 Future Research Leaders Fellowships call for applications: “Towards a fair, efficient and sustainable energy transition”.**

*We thank all the applicants for taking part to this call for applications. We received a very high number of applications and were very impressed with their excellent quality. The selection process for this campaign was therefore highly competitive.*

*If your name is not on the list below, we regret to inform you that after very careful consideration, and despite the high quality of your application, our Scientific Board has decided not to select it for funding this year. We do wish you all the best for your future academic endeavor.*

2018 H1 Fellow	Host Institution	Project title
Dr. Arodudu	Maynooth University – IE	Assessing the energy and climate change mitigation potential of Sub-Saharan Africa - a case study of bioenergy and climate change mitigation potential of organic waste and waste lands in Nigeria
Dr. De Groot	University of Cape Town - ZA	Derisking energy transition: designing strategies for incorporating social acceptance into distributed clean energy solutions in remote communities in Africa
Dr. Dumas	London School of Economics - UK	Firm networks, coordination failures and the role of industrial policy in the energy transition
Dr. Gosnell	London School of Economics - UK	From Seeing Green to Being Green: Catalyzing the Sustainable Energy Transition through Social Reward, Norms, and Contagion
Dr. Nematchoua	University of Liege - BE	Zero-Energy Urban blocks: low environmental impacts and cost-efficient Solutions (ZEUS)
